

# Greater Family Health Offers a Variety of Substance Use Disorder Services

Substance Use Disorders affect people from all walks of life. Greater Family Health is here to walk with you on your journey to recovery.

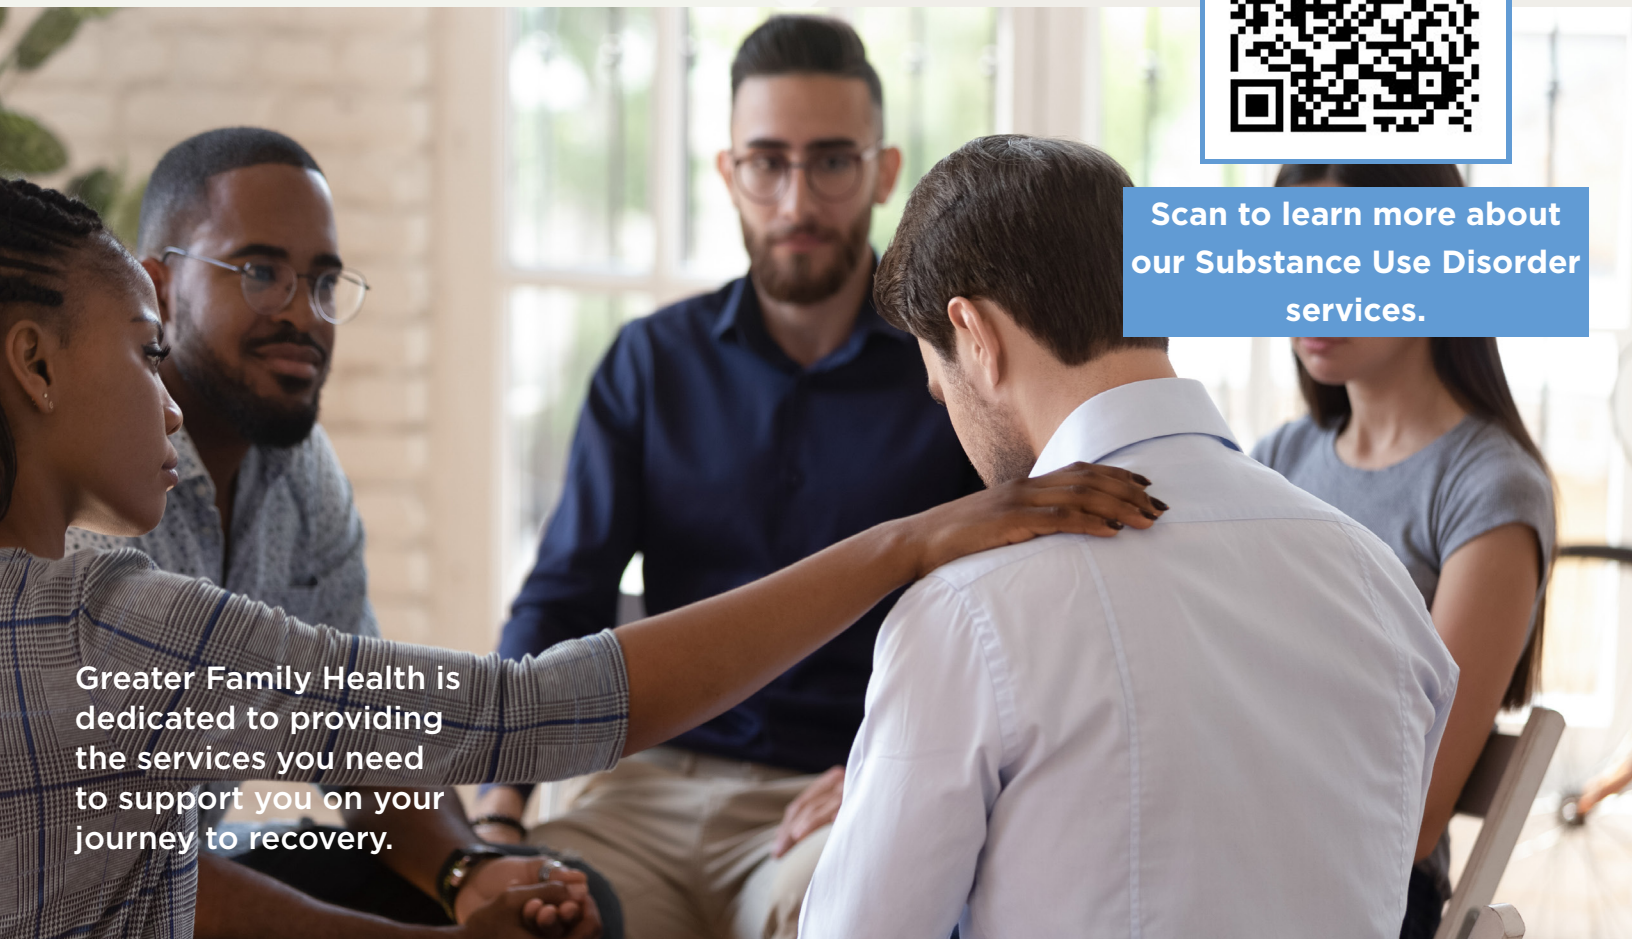

Our **Medication-Assisted Treatment** program is available for any adult who struggles with an Opioid Use Disorder. Participants will receive Buprenorphine (Suboxone) or Naltrexone (Vivitrol) in combination with outpatient behavioral health counseling and group therapy.

Our **Peer Recovery Support Specialist** will help you become and stay engaged in the recovery process and reduce the likelihood of relapse.

Our **SMART Recovery** meetings will help you learn how to build and maintain motivation to abstain from addictive substances, cope with urges, manage your thoughts, feelings, and behaviors, and live a balanced life.
