

Patient Satisfaction Survey
2550 N Annie Glidden Rd, DeKalb
July, 2022

I. Summary & Comments

Research on satisfaction surveys show that respondents generally indicate high levels of satisfaction with services. For this reason, social scientists argue that if a service receives less than 75% satisfaction, a problem may exist. Please keep this in mind as you review the survey results.

For the grading scale questions (1-13), the Level of Satisfaction (LOS) ranged from 90% to 94%. The mean for all questions was 92% satisfaction, based on the response distribution of scores noted elsewhere in this report. The chart below indicates the level of satisfaction for each question.
